“We are very pleased with our third quarter results,” said Michael J. Alexander, President and CEO. “Weather-related losses for the first nine months of 2018 were slightly below our expectations, resulting in better loss experience for our homeowners line of business. However, some larger losses, both weather and non-weather related, caused an increase to the loss ratio for our farmowners business. A more consistent weather pattern and additional moisture have improved the outlook for our crop insurance business in 2018. Finally, our assumed reinsurance lines are performing better in 2018 as we have not experienced the large losses for hurricanes and wildfires as we did in 2017.”

“The third quarter results include the acquisition of Direct Auto, completed on August 31, 2018, and the first month of results for that business. The acquisition itself included a one-time bargain purchase gain of \$4,578, while the new subsidiary contributed \$3,663 of revenues and \$260 of net income to the consolidated results.”

“The increase in our written premiums is a result of the continued growth in our policies inforce and the rate adjustments implemented to ensure that we are getting the proper premiums for the risks we are insuring. Third quarter net earned premiums reflect a higher ceding of multi-peril crop insurance premiums back to the federal government due to the risk-sharing provisions of our contract under the federal crop insurance program. We anticipate that the annual loss experience on our crop business will be favorable, thus resulting in higher ceding of earned premiums but also an increase to our bottom-line income.”

“Our overall loss and LAE ratio also reflects an improvement in our assumed reinsurance block of business, which has not experienced the high level of hurricanes and wildfires as last year. Our Private Passenger Auto, Non-Standard Auto, and Home and Farm businesses had similar results when compared to a year ago. Our overall expense ratio has increased from last year, due to higher acquisition costs related to the increase in written premiums, as well as additional expenses at the holding company.”

Current year net income is also improved due to a decrease in the effective tax rate as a result of the enactment of the Tax Cuts and Jobs Act of 2017 (“TCJA”). The TCJA was signed into law on December 22, 2017. In addition to other provisions, the TCJA lowered the federal corporate income tax rate from 35% to 21% effective January 1, 2018.
