

NI Holdings, Inc. Reports Results for Second Quarter Ended June 30, 2025

August 8, 2025

FARGO, N.D., Aug. 08, 2025 (GLOBE NEWSWIRE) -- NI Holdings, Inc. (NASDAQ: NODK) announced today results for the quarter ended June 30, 2025.

Summary of Second Quarter 2025 Results – Continuing Operations

(All comparisons vs. continuing operations for the second quarter of 2024, unless noted otherwise)

- Direct written premiums of \$109.5 million compared to \$118.5 million. This reduction was driven by Non-Standard Auto (-56.4%) due to the continued impact of the strategic decision to significantly decrease our Non-Standard Auto premiums, partially offset by Home and Farm (8.1%) driven by higher rate and insured values along with new business growth in North Dakota.
- Combined ratio of 125.1% versus 113.7%, primarily driven by higher unfavorable development of liability loss claims in Non-Standard Auto, decreased net earned premiums in Non-Standard Auto and a significant catastrophe event in North Dakota that exceeded the Company's \$20M reinsurance retention.
- Total pre-tax catastrophe losses, net of reinsurance, of \$20.0 million for the quarter and year-to-date, which adversely impacted the second quarter and year-to-date loss and loss adjustment expense ratios by 30.2 and 15.7 percentage points, respectively.
- Net investment income increased 40.8% to \$2.7 million, primarily driven by higher reinvestment rates in our fixed income portfolio and higher net realized gains.
- Basic loss per share of (\$0.57) compared to (\$0.36).

Management Commentary

"I want to begin by acknowledging the impact the recent historic storms have had on our North Dakota communities," said Seth Daggett, President and Chief Executive Officer. "We are committed to continuing to provide support to help our insureds navigate these difficult times, and together, we will rebuild stronger and move forward. Turning to results, the second quarter was negatively impacted by the catastrophe event in North Dakota, primarily in Home and Farm, offset by favorable weather conditions in South Dakota and Nebraska. The favorable results in South Dakota and Nebraska demonstrate the impact of underwriting changes and geographic diversification we have undertaken in recent years, and we continue to be pleased with the results of those actions.

Our high-quality investment portfolio continued to provide positive returns, benefiting from the higher reinvestment rates in our fixed income portfolio. Although we faced a challenging quarter, including further unfavorable prior year reserve development in Non-Standard Auto, we remain confident in the strength of our core business and our ability to provide appropriate returns over time."
